

Talal Sharfo

My name is Talal Sharfo and I am currently studying ICT, Business, and Construction at A-level. These subjects are helping me develop skills in leadership, organisation, and creativity, which will support my future goal of becoming an architect.

As Deputy Head Boy, I will bring dedication, teamwork, and a positive attitude. I want to represent students, support teachers, and be a role model for younger pupils.

My advice to younger students is to believe in themselves, work hard, and be kind. Every small effort you make now will help shape a brighter future.
